

Supervisor Landi called the workshop to order at 7 PM. Present were Supervisor Landi, Councilman Hoffman, Councilman Queipo, Councilman Nelson and Councilman Wells. Highway Superintendent Moore, and Town Attorney Ashley Torre were also present.

Committee Reports

Councilman Queipo distributed new radios to each of the Board members. They operate off of repeaters and give better coverage throughout the Town. Also he believes we should do more research into remaining in the MS-4 Stormwater plan or leaving it. He also reported that Town Historian Linda Queipo is currently working with resident Sarah Fassett regarding the possibility of her taking over the Historian's duties.

Councilman Wells reported that the Rec Program applications are available through email. His email is dwells@tokny.us. Senator Hinchey's office is scheduling a meeting between himself, Councilman Dave Hoffman, Code Enforcement Officer Bob Cologero and members of the NYS DEC to go over options for Woods Road.

Councilman Hoffman had nothing to report.

Councilman Nelson had nothing to report.

Supervisor Landi made the motion to appoint John Eigo as Planning Board Alternate. Councilman Hoffman seconded the motion. Approved (4-0)

Highway Superintendent Moore reported that the Highway Department will be working on brush in the upcoming days. The newest hire, Justin Judware, for the Highway Department seems to be working out well. They are looking into options to help with the drainage on Hill Road. One possibility is cutting back the cliff face on the left at the top of the hill. This would allow for a larger ditch to flow there.

Also there are no updates on the grant for the replacement of the culvert/bridge on Wintergreen Lane.
